

Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application.

Listing of Claims:

1-5 (Canceled).

6 (Currently Amended). A method of selecting desirable images for a user comprising:

- (a) a computer maintaining a list of a plurality of user-selected image content that includes at least one of a digital image and a digital video;
- (b) said computer determining potential desirable additional image content for said user based upon a comparison between said list and said additional image content, free from said additional image content being selected by said user for inclusion in said list, that includes at least one of an additional digital image and an additional digital video;
- (c) said computer indicating to said user the potential desirability of adding said at least one of said additional digital image and said additional digital video without requiring interruption of the user's work flow, with a decision operation to be made by said user before continuing said work flow, wherein said system adds said additional content to said list by a user interaction with said at least one of said additional digital image and said additional digital video after said indicating.

7 (Original). The method of claim 6 wherein said indicating includes a visual indication.

8 (Original). The method of claim 6 wherein said indicating includes an audible indication.

9-15 (Canceled).

16 (Currently Amended). The method of claim 6 wherein a file for said at least one of said digital image and said digital video includes ~~A rewritable digital file for storing image content, said file comprising:~~

- (a)——a pixel data portion of said file for preserving original image data in a first file format free from modification when said file is rewritten and ; ~~and~~
- (b)——a meta-data portion of said file containing rewritable instructions for rendering said pixel data portion in a second file format.
